

Clematis Materials

These colours are for the Clematis shown in the pattern.

The colours are different to the original as DMC have changed their colour range since making it.

Stems

DMC Petra No.5 in 5895 and a small amount of Petra/Perle No.5 in 5484.

5895 is a very deep green and not on the current colour chart. It can be replaced with 5500.

As such a small amount of 5484 (about 2m) is used, this can be replaced with 5500 if you would prefer. It is used for the roots and base of the stem.

Leaves

DMC Petra No.5 in 5700. 1 ball makes around 80 leaves so you will need to count your leaf stems to work out how many you need.

Seed Heads (2), Closed Buds (2 in each size), Opening Buds (2) and Flowers (1 in each size)

DMC Perle No. 5 (814 - 1 ball) and (3823 - 2 balls).

DMC Perle No. 8 in colours (A-208 - 2 balls), (B-209 - 2 balls), (C-210 - 3 balls), (D-211 - 4 balls), (E-B5200 - 2 balls) and (G-954 - 2 balls).

It will be cheaper to buy one ball 5211 in Petra No.8 than it will be for 4 balls of Perle No.8.

Also

Florists wire. I used green lacquered 28g x 12inch (0.38mm x 310mm)

4.00mm hook, 3.00mm hook, 2.00mm hook, 1.50mm hook and a crewel needle.

The original used Petra 5699 for the stems, 53900 for the leaves and Perle 154 for the flower centres.
